

Speaking Practice Test 1

PART 1

City or Country

- Do you prefer to live in the city or in the countryside?
- What do you think are the main advantages of each?
- What would say are the main problems of living in a city these days?

PART 2

Describe an environmental problem which exists in your country at the moment.

You should say:

- what the main problem seems to be
- for how long, approximately, it has been a problem
- who it affects mainly

and also say what is being done or what could be done to alleviate the problem.

PART 3

Discussion Topics: Government Responsibility

- Do you think the governments of the world are doing enough to preserve our environment?
- What kind of information do the government in your country provide about these issues?
- Do you think the general public could do more to help the government with the task?
